

SPECIAL FEATURES

NON-SLIP

The Protech Group's non-slip coatings are engineered to enhance surface safety by providing reliable slip resistance and helping prevent accidents. Ideal for high-traffic areas like stairs, decks, and walkways, these specialized coatings deliver exceptional performance where secure footing is essential. They're also suitable for a wide array of other applications requiring anti-skid protection, such as gym equipment.

OVERVIEW

Anti-Skid Powder Coatings for Safe, Non-Slip Surfaces.

Anti-skid, anti-slip, and non-slip are often used interchangeably to refer to coatings that prevent slipping by creating a safer surface. The Protech Group's non-slip coatings are engineered with this purpose in mind, providing dependable slip resistance in areas where safety is paramount. What sets these coatings apart is their distinct, textured, matte Sandtex finish, designed to

deliver a high coefficient of friction (COF) greater than 0.3 for superior grip. Skid resistance is rigorously evaluated using the inclined plane method in compliance with ASTM D4518 standards, ensuring consistent performance. In addition to excellent traction, the coatings offer outstanding wear and rub resistance, along with reliable durability even in outdoor environments.

MAIN FEATURES

- **Enhanced Grip, Traction, and Safety** – Improves surface friction for safer handling and movement.
- **High Surface Hardness** – Provides a tough, durable finish that resists scratches and dents.
- **Outstanding Wear, Rub, and Abrasion Resistance** – Withstands repeated contact and harsh conditions without degrading.
- **High Coefficient of Friction (COF)** – Delivers superior anti-slip properties for added safety.
- **Increased Durability** – Extends product lifespan even in high-use or high-impact environments.
- **Aesthetically Functional** – Combines performance with a textured, visually purposeful finish.

TYPICAL APPLICATIONS

- **Anti-Slip Surfaces** – Decks, ramps, walkways, steps
- **Industrial Storage Systems** – Shelving units, warehouse racking
- **Access and Safety Equipment** – Ladders, handrails
- **Tools and Handling Equipment** – Hand tools, grips, handles
- **Vehicle and Utility Surfaces** – Truck beds, utility platforms, trailer floors

FORMULATING THE RIGHT MIX.

Since 1976, the Protech Group has been developing and manufacturing coatings, paints, and specialty materials. Through quality and innovation, we formulate the right mix to protect and enhance what matters most to our customers. Protech Group products are manufactured in more than 20 sites worldwide. We serve our customers in countless markets and industries, including construction, infrastructure, transportation, consumer goods, and healthcare.
